

Day 6 - Pinhao - Peso da Régua 28 km

Today you'll be driving towards your final destination: **Peso da Régua**. You'll start to feel like a local, with long paths and traditional houses scattered across the land. End the day in Peso da Régua, another important town nestling on the banks of the Douro, full of history and traditions about wine production and festivals. Take advantage of the Original Douro Hotel for a restorative break or enjoy the sunset around the town to round off this magnificent day.

Day 7 - Loop around Peso da Régua 28 km

Almost half of the final leg takes place along the river, so if the weather permits, take the opportunity to have a swim! This loop around Peso da Régua takes you through Douro wine country. The many undulating slopes are a challenge for wine tasters and cyclists alike. One of the best places to taste wine today is at **Quinta da Pacheca**, one of the Douro's best-known estates, distinguished by the fact that it was the first to bottle wines bearing its brand name.
